

REBECCA TELESH

For SCHOOL BOARD

QUALITY EDUCATION - FISCAL RESPONSIBILITY
ACCOUNTABILITY

- **Quality Education** - is paramount to a thriving community. I will fight to make sure academic achievement is the cornerstone. Quality should be measured by results students achieve not how much money we spend.
- **Fiscal Responsibility** - For too long it has been too easy for the administration to pass ever increasing budgets. I will not make it easy and will work towards a responsible budget process that is classroom focused. I will propose and fight for true transparency starting with an online check register.
- **Accountability** - will start with me. I have signed an ethics pledge that I will work to make a binding code. I will hold the administration accountable for every item on the budget and for academic results. I will not accept the status quo.

I Promise to bring some
balance and accountability
to the School Board.

You can count on me to keep
my word
